VFR ARRIVALS/DEPARTURES

Due to the anticipated increase in the volume of traffic, enroute aircraft desiring to transverse the DFW Class B airspace may encounter delays and alternate routes outside the Class B airspace. (See Dallas/Fort Worth VFR Terminal Area Chart). Note: This is a very congested airspace, issuance of a transponder code is not a clearance to enter Class B airspace, wait for identification and specific clearance from the controller prior to entering Class B airspace.

VFR aircraft are encouraged to cancel/activate flight plans with LFS FTW HUB when approaching or departing the City of Fort Worth.
