

FOLDS OF HONOR QUIKTRIP 500

MONSTER ENERGY CUP NASCAR SERIES

HAMPTON, GEORGIA

March 12–16, 2020

SPECIAL AIR TRAFFIC PROCEDURES

The following procedures are in effect to enhance safety and minimize air traffic delays. Use extreme caution while operating near Hampton, GA (KHMP). Obtain current FDC and Local NOTAM information prior to operating in the area.

ATLANTA TRACON FREQUENCIES

EAST of V97 and SOUTH of V18	128.57
WEST of V97 and SOUTH of V18	119.8
EAST of V97 and NORTH of V18	126.97
WEST of V97 and NORTH of V18	121.0

IFR ARRIVAL PROCEDURES

All IFR arrivals should be prepared to enter the VFR traffic pattern. IFR arrivals should be familiar with the VFR arrival procedure. Please be **PROMPT** with your IFR cancellation on frequency **128.57**.

PREFERRED IFR ARRIVAL ROUTES/ALTITUDES

DEPARTURE AIRPORT	ROUTE
CLT, JQF, RUQ (jets)	BEAVY SID GANDT IRQ BEYLO CANUK KHMP
CLT, JQF, RUQ (turbo-props)	KER SID ANDYS IRQ BEYLO CANUK KHMP
GSO, INT, EXX, MTV, SVH	BZM SUG V20 MADDI KHMP
HKY, AVL, VJI, TRI	SUG V20 MADDI KHMP

Due to traffic in the Atlanta area, expect a final altitude **no higher than FL220**.

IFR DEPARTURE PROCEDURES

All IFR aircraft departing **after** the race on March 15 should file flight plans with a 1615 LCL (2115 UTC) proposed departure time. Atlanta Center will ensure flight plans will not expire prior to 0100 UTC on March 16, 2020.

Aircraft departing KHMP should request clearance through Atlanta TRACON (A80). To reduce frequency congestion, request clearance by telephone at **678-364-6131 or 770-487-3893**. All telephone clearances will be **HOLD FOR RELEASE**. Do not request release until you are in the number one position and ready for immediate departure.

PREFERRED IFR DEPARTURE ROUTES/ALTITUDES

Departures, particularly aircraft landing HKY, SVH, MTV, EXX, and AVL, should anticipate dynamic reroutes and/or altitude assignments as needed for weather and traffic volume. Do not circumvent preferred routes as they are intended to balance departure operations and minimize delays.

DESTINATION	ROUTE
CLT (Jets)	KHMP EATWO CNTLR JONZE2 KCLT
CLT (T-Props)	KHMP EAONE AHN GRD UNARM UNARM6 KCLT

Expect a final altitude **no higher than FL230**.

HMP VFR DEPARTURE/IFR PICKUP PROCEDURES

Due to the extremely high volume of traffic in the Atlanta area, follow these procedures unless an emergency situation exists:

- Squawk 1200 on departure.
- Remain clear of the Atlanta Class B airspace.
- If planning an IFR pick-up, ensure that an IFR flight plan is on file with Flight Service.
- IFR pick-up service may be limited within 100NM of KHMP. Except in an emergency, IFR air-file clearances will not be issued within 100 miles of KHMP.

TEMPORARY FLIGHT RESTRICTION

A Temporary Flight Restrictions (TFR) is in effect for this event. See **FDC NOTAM 9/1814** for details.

Flying in for CONEXPO?

CONEXPO is North America's Largest Construction Trade Show. The event is held in Las Vegas March 10–14, 2020

Pacer is a new research application, funded by the FAA, for General Aviation that allows you to submit an intended departure time, view demand information for your departure airport, and give you a better awareness of busy departure times. This allows you and your customers to make informed departure time decisions. This program serves the GA community 24/7 at McCarran International Airport (LAS) and Henderson Executive Airport (HND).

To help mitigate compacted departure demand which can contribute to departure delays, please visit the website below and submit your intended departure time. This is information sharing and is intended to make your flying experience at Las Vegas a better one. Please note, this is not a slot time.
